

## Do As It May

### Verse 1

And while I know  
The days may be unfriendly to me soon  
If even every shoulder turn cold, I know I can turn to you  
And you will shine baby  
A beacon on a tower cross the sea  
Leading me through treacherous tides  
Stronger than you could believe

### Chorus 1

If even all sounds comin' cross my ears are screamin'  
I don't have to hear them just with one whisper from you babe  
And every time you tell me it's all right ain't nothin' that I can't survive  
as I meet my troubles day to day

[x2]

Long as I got you girl  
Let the world do as it may

### Verse 2

And even though  
Mountains need a movin' every day  
From the air she conjures the time for her darlin all the same  
And while I try baby  
To make myself be worthy of her heart  
Every time her kindness unfolds  
Sends me right back to the start

### Chorus 2

If even all sounds comin' cross my ears are screamin' I don't have to hear them  
just with one whisper from you babe  
And every time you tell me it's all right ain't nothin' that I can't survive  
as I meet my troubles day to day

[x2]

Long as I got you girl  
Let the world do as it may

### Bridge

And what does one do  
To deserve being lucky as I?  
What gracious star has fallen

For this to be true  
Or is her love a generous lie  
But I don't need the answer

### Chorus 3

'Cause if all sounds comin' cross my ears are screamin' I don't have to hear them  
just with one whisper from you babe  
And every time you tell me it's all right ain't nothin' that I can't survive  
as I meet my troubles day to day

[x3]

Long as I got you girl  
Let the world do as it may  
(long as i got you girl, long as i got you girl)

(long as i got you girl, long as i got you girl)
