

## Stay the Night

### Verse 1

Ain't it changin' now, standin' by the doorway she lingers a while  
All of these years never stopped before leavin'  
Gotta dive in now, Nervous lord I feel like a feverish child.  
Where are the words that'll keep her from leavin'

Won't turn away, Betray my soul  
Then tell myself the lie another day  
Against the waves, now I will go  
And though my hands belie, I calmly say

### Chorus

Darlin' stay the night, stay 'til the mornin' come around  
Until this weight of time is gone  
'Til the endless wonderin' give me peace  
'Til I feel that feelin' finally

### Bridge

Oh the moonlight shine on where she lay  
Softly as not to wake her  
Oh and don't I feel so far away  
Just hope that I can take her along  
And I think that she'll come along

### Verse 2

Ain't it changin' now, standin' by the doorway he lingers a while  
There on his breast lies the rose that she gave him  
Ain't it flyin' now, don't want to believe it but he ain't a child  
She's there beside know her mind's on the same thing

Across her face, a striking glow  
That makes your trouble find another day  
Then with the grace, that long I've known  
She puts her hands in mine, to slyly say

### Chorus 2

Darlin' stay the night, stay 'til the mornin' come around  
Don't make me wait, the moment calls  
As the light is fadin' you and me  
Wanna feel that feelin'

### Chorus 3

Stay the night, stay every night babe wontcha now  
It's something great, our time recall  
May that righteous wonder, never cease  
So I feel that feelin' over me  
So I feel that feelin', mhmmm, over me
